KELLY'S Half-Price ENGRAVING

BABBITT'S SOAP POWDER.—Ladies who are interested in dispensing with the slavish
Washing Day, and those who wish to accomplish the washing for ten persons with the simple cost of Two Cents, will
please read this. This article is cailed B T. BABBITTS
SOAP POWDER, it being reduced to a powder comes very
much cheaper than in any other form. Bar soap contains
twenty-live per cent of water in a crystalized state, otherwise it would not hold together. While Babbitt's is reduced to nowder and contains more washing material than duced to powner and contains more washing material many other article in the world, and does not lose in weight like bar sonp by standing; if bar sonp stands in the open air one year it will lose from twenty-five to thirty per cent—of course this loss must be water and nothing else, therefore it cannot be washing material. Babbit has had applications from all parts of the country for the exclusive right for seiling, but as yet has sold no exclusive right for seiling, but as yet has sold no exclusive right for seiling, but as yet has sold no exclusive rights. The average sales are about two and a half tuns per day. A deduction is made by the ten boxes of ten per cent; five boxes, five per cent. All infingers will be rigidly prosecuted, which are ten in number at this time. Everything in the skape of washing without listor was unknown until BABRITT advertised—then the whole world was set in commotion to evade BABBITT'S PATENT SOAP POWDER, but as yet nothing compares everytone man and he dare not manufacture in counse.

of say in and will remove everything that any other soap in the world will do.

The clothes do not require boiling after the first direction is followed to make them white—thus saving much time and labor. It has been used nearly two years, and it is found clothes last more than twoced as long, because they are not rabbed to pieces as they are when a wash board is used. No washing soda is required. The retail price is twelve and a half cents. There is no risk in trying it, because one package will make two gallons of beautiful soft soap, that any one can use.

For sale be nearly all the groceries in this place. Manufactured at 65 and 76 Washington-81. In New-York City. Any country druggest or merchants can order through any wholesale merchant in New-York, and get as cheap as to apply to the fuctory direct. Any person in the Cities of New-York and Brooklyn can have a single box sent to them at the cost of six and a quarter cents, by sending to the factory, 76 Washington-81, and 76 Washington-81. Reperts. General depot for the sale of BABBITTS SOAP POW-DER at

68 and 76 Washington-81, New-York.

THOSE ELEGANT WHITE RUBBER GOODS.—Never, in the progress of the India
Ruther art has a mode of manufactoring been discovered
by which the fabric could be vulcamized and come out a
white color, until Tyler & Heim made their invention, and
obtained a patent for their beautiful Zine Rubber, which
now takes precedence of all other rubber fabrics. These
goods are of a light drab, so light as to border en white
and can be shaded any color. The fabric is admirable
added to table, pinn and other furniture covers, and ornamental articles, as well and better than rubber made
from any other patents. It is free from that unpleasant,
sulphurous odor of Geodyear's patent, is not affected by
heat or body or constant exposure to the weather. All
goods made by Goodyear's patent are necessarily dark or
black Less durus dark when vulcanized in steam, while
rinc remains a clear white Dealers are invited to compure my patent fabrics with any other in the market, and
are warned urainst the infringement of my patent by the
Union India Rubber Co., and other concerns forming part
of the combination, against whom suits have been commenced for this pracy.

HORACE H DAY,
28 OCTIMANY

DATENT ZINC PAINTS, as Manufac-

PATENT ZINC PAINTS, as Manufactured by the New-Jersey Exploring and Mining Company, for sale by the quantity only.

Whith Zinc Paints—The No. 1 quality, ground in either oil, sprits of turpentine, of its variate, (when gives the beautiful porceion finish so much admired, is whiter than the pursat white lead, is free from all foreign impurities, and destitute of the unpleasant smell and possonous properties of field paints.

The Nos. 2 and 1 qualities are in all respects like the No. 1, except they are not quite so white, they come at lower prices, and are well adapted to outside work.

The dry white cube of Zinc mixed with water and a little stre, makes a brilliant and lasting white counting for walls and ceilings.

The drivent chart and lasting white coating for walls and ceilings.

A suitable driver is prepared for the paint, and it is in all other respects used like white lead, attorpt that it should not be quite so much thanned down with oil.

Dank Brown and Branz like Paints.—These are furnished at a low price, and are undoubtedly the cheapost and best paints in the market; they are invaluable for an roofs and aron surfaces of all kinds, being a perfect protection against one surfaces they are also a valuable protection against fire.

These Zine Paints, having a pure metallic base, are warranted not to turn yellow, and will retain their original brilliancy much longer than what lead or any of the earthy purnents now in use.

The attention of dealers is requested by the Company's general agents.
